

## In the Community

Transport and Garage Department is known for its commitment to the communities we serve. Our leadership and staff actively contribute to philanthropic courses by serving on professional, community and non profit boards, and as community volunteers. Whether this means chairing a fundraiser for a local charity, buying and wrapping gifts for less fortunate families during the holiday season, our people are dedicated to investing their time and talents to this endeavours. Many of our staff members are actively involved in leadership roles in various professional and community organisations.

The department also supports various charitable campaigns in our office throughout the year and several staff members have "adopted" organisations to which they volunteer time on a regular basis.

Transport and Garage department feels a strong sense of pride when we look at the contribution our staff members have made to the growth and success of communities we affect.
