

Services Offered

Transport and Garage department is responsible for provision of transport services, and maintenance of all University motor vehicles. The department is aware that our customers depend on us to approach their transportation and motor vehicle repair needs from a comprehensive perspective, implementing solutions that meet their customised needs and deliver the superior service they expect.

The department is comprised of two sections, Transport Section and Garage Section. The former is responsible for receiving all transport requests from our customers within the University, and allocating resources[motor vehicles] to meet these requests, while the latter is responsible for repairing and maintaining all university motor vehicles. With garage services having been outsourced, garage department is responsible for inspecting motor vehicles that are due for service/and repairs, and consequently producing a repair specification that is used by outside garages in repairing and servicing of motor vehicles availed to them.
